**Gullen Range Wind Farm Sponsorship lends a helping hand to  
Wollondilly Soldiers Football Club**

Gullen Range Wind Farm has sponsored local Goulburn soccer club, Wollondilly Soldiers Football Club, for the 2018 season. The \$800 donation has financed new strips for the Under-13's soccer team.

Derek Powell, Deputy General Manager, BJCE Australia, said “we have been a part of the local community for over four years and are delighted to sponsor the under 13’s team. Establishing and maintaining a good relationship with the community is instrumental to our success.”

Mark Harris, WSFC President said, “we’re very thankful Gullen Range Wind Farm’s support and look forward to working closely with them to provide more benefits for their sponsorship. Over the past two years, we’ve been able to refresh all of our playing strips, which has been warmly welcomed by our players.”

Earlier this month BJCE Australia was a top three finalist in the Australian Clean Energy Council Business Community Engagement awards recognising their excellence in the clean energy sector.

Gullen Range Wind Farm also recently announced the successful applicants for the 2018/19 Community Enhancement Fund. Seven local organisations will share in \$70,905 to help benefit the community.

Each of BJCE Australia’s clean energy projects – Biala Wind Farm, Gullen Range Wind Farm and Gullen Solar Farm – offer support to the local community. Other sponsorship initiatives include, the Crookwell Show, the Crookwell Devils and the Goulburn Railway Bowling Club.

Gullen Range Wind Farm is 100% owned by BJCE Australia. This wind farm consists of 73 turbines and produces enough energy to power in excess of 70,000 homes on an average day of wind. It is co-located with Gullen Solar Farm which has 42,000 solar panels and has been in operation since 2017.

**About Beijing Jingneng Clean Energy (Australia) Holding Pty Ltd**

Beijing Jingneng Clean Energy (Australia) Holding Pty Ltd (BJCE Australia) is wholly owned by Beijing Jingneng Clean Energy Co. Limited through its Hong Kong subsidiary (BJCE HK). BJCE was established in August 2010 and is the leading supplier of wind power in China. Listed on the Hong Kong stock exchange in 2011, BJCE's energy portfolio includes gas, wind, solar PV and hydroelectricity. As at 2017 BJCE owns and operates in excess of 8GW of clean and renewable energy generation assets. In 2014 BJCE entered the international market by acquiring a 75% stake in the 165.5MW Gullen Range Wind Farm. BJCE Australia's growing team consists of ten people, moving towards an ambitious target of owning and operating 1GW of generation in Australia by 2020. BJCE is based in Beijing and the headquarters of BJCE Australia are in Sydney.
